Approved.

I approve the Mod request. Two concerns for the owner:

Make sure the height increase due to the pavers is compatible with door threshold heights.

Assure where patio pavers meet mulch beds/turf, that the pavers are provided with edge stability protection to maintain structural integrity.

Please provide me a copy of the signed Mod request and I will get it filed in the clubhouse archive file.

The Huelsman's, at 2803 SML, is requesting a property modification—see the 2 attachments. We would like to get this done prior to the weather breaking. There is no cost to the HOA. Looking forward to your approval.

Thanks! Bob
